AFFLIATIONS

Kappa League

ACM – Columbus State University: The CSU ACM strives to achieve excellence in all areas and aspects of computing in both our members' academic and professional careers. Our chapter, founded in 2012, is one of the leading student organizations in the College of Business at CSU. We continuously reach out to the University's community and share our knowledge and passion of computing in order to enrich the community and hone our skills as computer scientists. Together as a team we will enhance our skills, grow as an organization, and improve the computing capabilities of CSU, Columbus, and beyond.

Colorstack – Columbus State University: We're a tech nonprofit cultivating the strongest cross-campus community of its kind to deliver community building, academic support, and career development opportunities at scale.

PROJECTS-

Python: Natural Disaster Simulator – This is a Simulator that informs people about what to do when a certain disaster is happening to them. **Java: My Reminder App-** This app allows people to make reminders to help themselves to remember events that they have coming up. It reminds you when the event gets closer to happening so you will be there on time.
